INDEX OF SUBJECTS

Volume 43

Acoustic sounders 15, 65
Agricultural meteorology 287, 383
Air pollution 93, 99, 287
Antarctic meteorology 403
Askervein Hill 143, 247

Drainage flow 103
Duirnal variations 183, 209

Force-restore method 85
Forest meteorology 43, 345

Gravity waves 403
Ground surface temperature 85

Kettles Hill 309

Langevin simulations 287
Low-level jets 1

Mesometeorology 15, 103, 143, 171, 247, 273, 309

Nocturnal boundary layer 1, 65,
Numerical modelling 1, 85, 103, 143, 247, 273, 309, 393

Planetary boundary layer 1, 65, 125, 171, 209, 223, 365, 393, 403,

Radar meteorology 15, 65, 125
Radiative surface temperature 383

Sahelian energy budget 183
Slope winds 103
Stable atmospheric boundary layer 1, 65, 223, 365
Sub-cloud layer 125
Surface boundary layer 65, 91, 183, 383

Thunderstorm sub-cloud layer 125
Tropical forests 43
Turbulence in a forest 43, 345
Turbulent diffusivity 209

Velocity spectra in the PBL 223

Wind flows over a hill 143, 247, 309
Wind-tunnel modelling 247, 309

TABLE OF CONTENTS

Volume 43

ARTICLES

BALDOCCHI, DENNIS D. and TILDEN P. MEYERS / Turbulence Structure in a Deciduous Forest 345

BEYRICH, F. and B. KLOSE / Some Aspects of Modelling Low-Level Jets 1

DELAGE, YVES / A Parameterization of the Stable Atmospheric Boundary Layer 365

EGGER, T. and S. SCHMID / Elimination of Spurious Inertial Oscillations in Boundary-Layer Models with Time-Dependent Geostrophic Winds 393

KARPIK, S. R. / An Improved Method for Integrating the Mixed Spectral Finite Difference (MSFD) Model Equations 273

KORACIN, DARKO and RUWIN BERKOWICZ / Nocturnal Boundary-Layer Height: Observations by Acoustic Sounders and Predictions in Terms of Surface-Layer Parameters 65

LECLERC, M. Y., G. W. THURTELL, and G. E. KIDD / Measurements and Langevin Simulations of Mean Tracer Concentration Fields Downwind from a Circular Line Source Inside an Alfalfa Canopy 287

LHOMME, JEAN-PAUL, NADER KATERJI, ALAIN PERRIER, and JEAN-MICHEL BERTOLINI / Radiative Surface Temperature and Convective Flux Calculation over Crop Canopies 383

McMILLEN, ROBERT T. / An Eddy Correlation Technique with Extended Applicability to Non-Simple Terrain 231

MORAES, OSVALDO L. L. / The Velocity Spectra in the Stable Atmospheric Boundary Layer 223

NEFF, W. D. and C. W. KING / Observations of Complex Terrain Flows Using Acoustic Sounders: Drainage Flow Structure and Evolution 15

PINKER, R. T. and J. Z. HOLLAND / Turbulence Structure of a Tropical Forest 43

SALMON, J. R., A. J. BOWEN, A. M. HOFF, R. JOHNSON, R. E. MICKLE, P. A. TAYLOR, G. TETZLAFF, and J. L. WALMSLEY / The Askervein Hill Project: Mean Wind Variations at Fixed Heights Above Ground 247

SALMON, J. R., H. W. TEUNISSEN, R. E. MICKLE, and P. A. TAYLOR / The Kettles Hill Project: Field Observations, Wind-Tunnel Simulations and Numerical Model Predictions for Flow over a Low Hill 309

YASUDA, NOBUHISA / Turbulent Diffusivity and Diurnal Variations in the Atmospheric Boundary Layer 209

RESEARCH NOTE

KONDO, JUNSEI and TAKESHI SATO / A Simple Model of Drainage Flow on a Slope 103
LABRAGA, J. C. / Near-Surface Wind Estimates Using Statistics from a Planetary Boundary-Layer Model 171
LIN, YEONG-JER and PATRICK M. CONDRAY / Momentum Flux in the Subcloud Layer of a Microburst-Producing Thunderstorm Determined from Jaws Dual-Doppler Data 125
MICKLE, R. E., N. J. COOK, A. M. HOFF, N. O. JENSEN, J. R. SALMON, P. A. TAYLOR, G. TETZLAFF, and H. W. TEUNISSEN / The Askervein Hill Project: Vertical Profiles of Wind and Turbulence 143
PAGÈS, JEAN-PIERRE, JEAN-PIERRE FRANGI, PIERRE DURAND, CLAUDE ESTOURNEL, et AIMÉ DRUILHET / Etude de la couche limite de surface sahelienne - Experience Yantala 183
TOKIO KIKUCHI / A Case Study of a Wave-Like Cloud and Gravity Wave in the Lower Troposphere in Mizuho Plateau, Antarctica 403
YEE, SAMUEL Y. K. / The Force-Restore Method Revisited 85

CORRESPONDENCE

GERSTMANN, W. / Comments on 'An Examination of Turbulence Statistics in the 91 Surface Boundary Layer'
WALKLATE, P. J. / Reply to Comments on 'A Relationship Between Fluid and Immersed-Particle Velocity Fluctuations' 99
WILSON, J. D., E. P. LOZOWSKI, and Y. ZHUANG / Comments on 'A Relationship Between Fluid and Immersed-Particle Velocity Fluctuations', Proposed by Walklate (1987) 93

BOOK REVIEWS

Bohren, C. F., *Clouds in a Glass of Beer* (R. E. MUNN) 411
Durst, F., B. E. Launder, J. L. Lumley, F. W. Schmidt, and J. H. Whitelaw, *Turbulent Shear Flows 5* (A. G. DAVENPORT) 101
Martin, H. C. (ed.), *Acidic Precipitation* (R. E. MUN) 411
